

DF960 with Volcanic Black Slim fascia and Log fuel bed

## DF960

### High Output Fireplace (Gas)

The Escea DF960 packs a visual punch with its large flame viewing area and sleek design. High heat output and 5 star efficiency give it just the right mix of form and function. With its minimalist frame, the DF960 is the ideal gas fireplace for either a modern or traditional styled open plan living space.

## Design Options

**Slim (3 colours)**

**Stretch (3 colours)**

## Fuel Bed Options

**Logs**

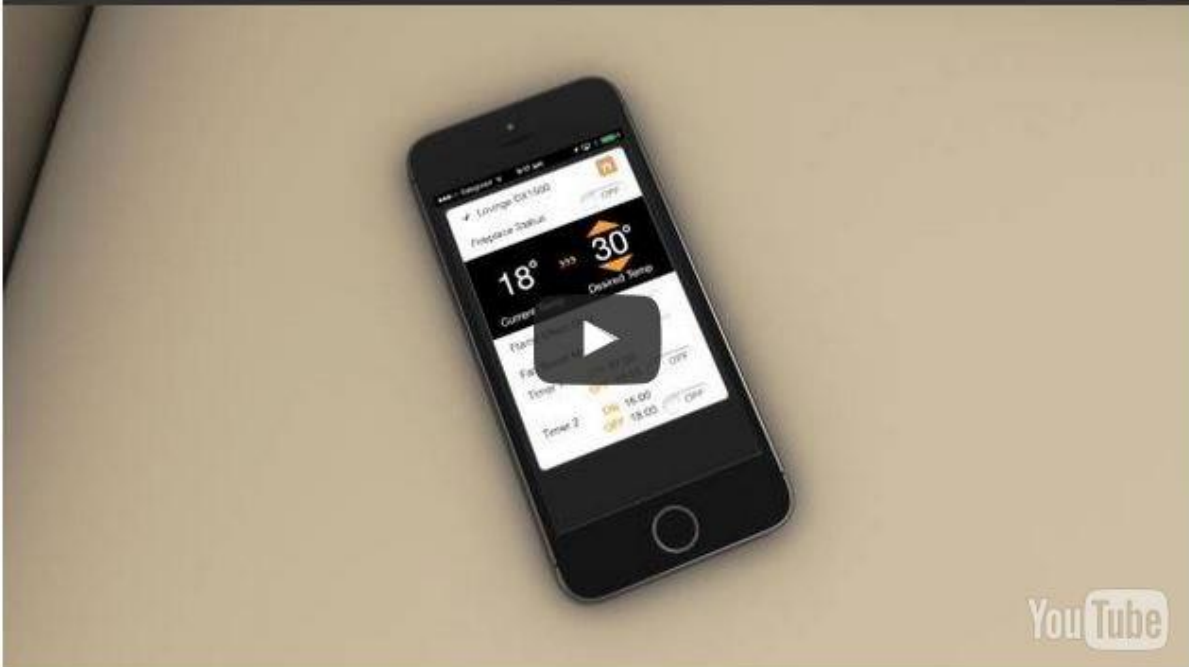

**Small Black Coals**

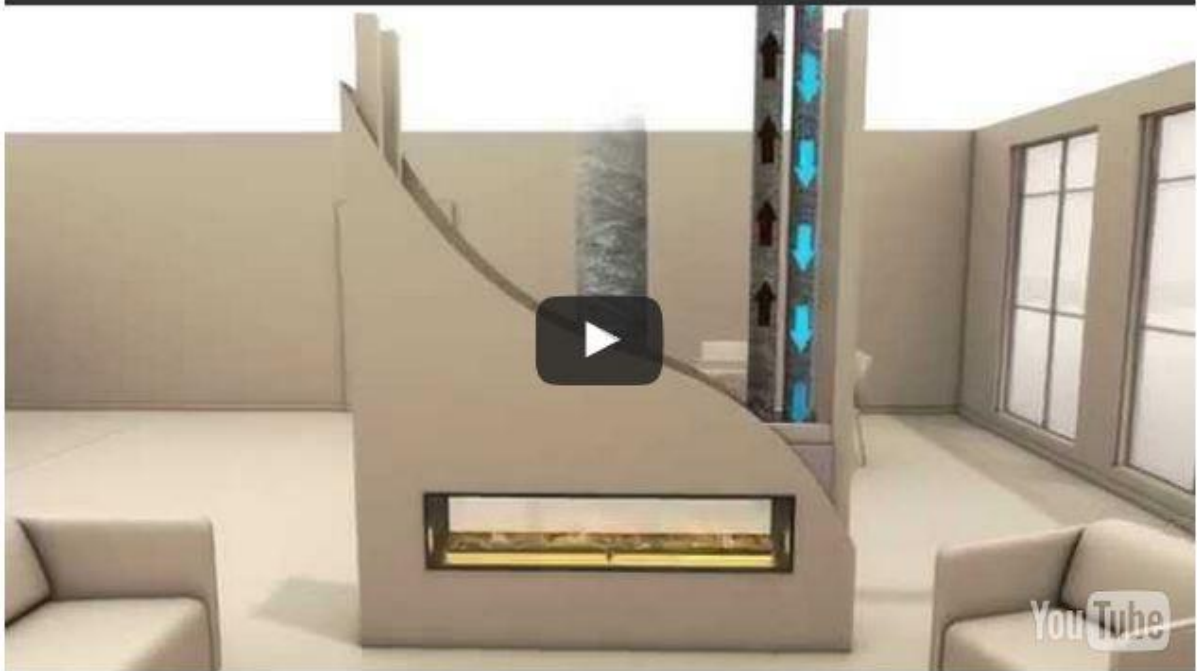

**Small NZ River Rocks**

## Smart Heat

The DF960 can be remotely operated via any device connected to the internet. In addition to the normal remote, a smart phone with the Escea Smart Heat app installed can be used to operate the gas fireplace.

## Powered Direct Vent Flue

This fireplace uses a Powered Direct Vent, which allows long horizontal and vertical flue runs. This efficient flue system offers considerable flexibility in location and installation.

## Features

### Remote Control

This gas heater comes supplied with a remote control so you can adjust the temperature from the comfort of your couch.

### Timber cavity fireplace

This fireplace insert is suitable to be built into a timber cavity.

### Brick chimney retrofit fireplace

This gas log fire can be installed into a brick chimney with aluminium flexi-flue extensions.
