

PE80 Blue Pipe

- Manufactured dimensionally to AS/NZS 4130.
- Suitable for use with Bloat Remedies
- Suitable for Pressure mains and Effluent lines.
- Pressure ratings stipulated are recommended Maximum Working pressure @ 20°C
- Suitable for a wide range of fittings:- camlocks, metric fittings and electrofusion couplings.
- UV stable

Size

12.5 Bar - 174 psi (SDR11) Dimensions and Coil Lengths

| Nominal Bore | Outside Diameter | Wall Thickness | Internal Diameter | Length |
|--------------|------------------|----------------|-------------------|----------------------|
| 20mm | 20 | 2.05 | 16.05 | 25m, 50m, 100m, 200m |
| 25mm | 25 | 2.50 | 20.15 | 25m, 50m, 100m, 200m |
| 32mm | 32 | 3.10 | 25.95 | 25m, 50m, 100m, 200m |
| 40mm | 40 | 3.95 | 32.30 | 25m, 50m, 100m, 200m |
| 50mm | 50 | 4.90 | 40.45 | 25m, 50m, 100m, 200m |
| 63mm | 63 | 6.15 | 51.00 | 25m, 50m, 100m |
